To whom it may concern

Monal Prasad, an undergraduate student in the department of Computer Science and Engineering at Indian Institute of Technology Kharagpur assisted me in my research work conducted at University Of California San Francisco from May 2021 to July 2021.

She assisted me on Sentiment analysis and AI aggregation for stock price prediction using Python frameworks. During the course of the project, Monal showed many promising attributes like perseverance, commitment and quick apprehension. It was a pleasure to have Monal on the project and I wish her every success in life.

Please feel free to ask any questions about the remote internship to the e-mail contact indicated here.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Fei Jiang'.

Fei Jiang, Ph.D.
Assistant Professor, Epidemiology & Biostatistics
School of Medicine, University of California San Francisco
